By Frederick Augustus Cairns

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Manual of Quantitative Chemical Analysis for the Use of Students Mr. F. A. Cairns, the author of this work, died suddenly while engaged in preparing the first edition for the press. The undersigned completed what was found to be necessary, and the work was published. After using it in class room and laboratory for a year, it has been deemed advisable to prepare and issue a new edition in which a few typographical errors have been corrected and some notes of an explanatory nature added. In a few cases it has also been found preferable to modify the phraseology employed, and a new chapter has been added on the testing of illuminating gas. It is to be hoped that the changes made will meet with the approval of those making use of the book, and that the conscientious labors of the author will still have the cordial appreciation of workers in this branch of chemistry.
