Evaluating Community
Forestry Processes and
Outcomes

LAP Lambert Academic Publishing Nov 2015, 2015. Taschenbuch. Book Condition: Neu. 220x150x11 mm. Neuware - With the cases from 10 community forests of western Nepal, the study observed that, after decentralization, all forests were actively as well as sustainably harvested by local communities, supporting the general 'conservation through economically rational utilization' predictions of common pool resource management theory. The study further revealed that total forest income contributed about 5.8% to total household income, ranging from 3.8 to 17.4% for the...
