Quarterly Circular Volume 22 (Paperback)

By Anonymous

Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1905 edition. Excerpt: . is very attractive and readable, and Dr. Inglis is to be congratulated upon the result of his labours. Careful revisions have been made, notably in connection with erosion and dental caries, while the plethora of beautiful illustrations much enhances its value. The six sections into which it is divided, each with its quota of chapters, are: --General Pathology. Embryology, Anatomy, and Histology. Affections of the Enamel and Dentine. Diseases of the Dental Pulp. Diseases of the Pericementum. Pericemental Diseases beginning at the Gum Margin. The pharmacological section presented in the first edition has been omitted, but we are glad to note that the remedial agents referred to in the text have been completely indexed. To sum up the work as a TextBook of Dental Pathology and Therapeutics, it could be urged that too much space has been devoted to histological matter, at the...
